Application No. 09/807,696

The reason for the request to withdrawal the above-reference patent application from issue is that Applicant has received a Supplementary European Search Report dated October 12, 2004. The Search Report cites six patents that have been identified as being particularly relevant if taken alone. Five of these patents cited have not been considered by the Examiner.

Therefore, it is requested that this Petition for Withdrawal from Issue be granted and that the accompanying Request for Continued Examination (RCE) of the application filed concurrently with this Petition be approved in order that the patents can be considered by the Examiner.
